Detailed Project Report (DPR) Model Template for NHB Scheme No. 2

Scheme No. 2	Capital Investment Subsidy Scheme for Construction/ Expansion/ Modernization
	of Cold Storage and Storages for Horticulture Products.

Nature of Project	Tick mark
Modernisation of Refrigeration	
2. Modernisation of Insulation	
3. Add on Stand-alone component or modernisation	

		Tick
		mark
1.	Modernisation of Refrigeration	
2.	Modernisation of Insulation	
3.	Programme Logic Controller (PLC) Equipment	
4.	Dock Leveler	
5.	High reach material handling equipment (MHE)	
6.	Advance Grader	
7.	Stacking System	
8.	Alternate Technology	
9.	WDRA NWR System	

	Submitted by
((Applicant) with full correspondence Address

Detailed Project Report (DPR) will have to be signed by the applicant (s) / authorised person (in case of legal entity) on each page with date along with Horticulture and Project Finance Expert wherever applicable.

Index

S. No.	Description	Page No.
	Project at a Glance	
1.	About the Applicant /Promoter and his/her relevant experience	
2.	Details of benefits availed by the Applicant / Promoter	
3.	About Project -Name, Rationale, Management and Description	
4.	Market viability	
	4.1 Raw material commodities & their characteristics	
	4.2 Raw material Availability	
	4.3 Market Analysis	
	4.4 Business Model	
5	Financial Viability	
6	Technical Viability	
	1. Design and Technical standards of Cold storage, Technology and add on components and their compliance	
	2. Automation if any	
	3. Cold storage Protocols	
7.	Food Safety	
8	Traceability	
9.	Innovation if any	

Annexure

	1	Checklist	
ſ	2	List of documents to be submitted:	
ſ	3	Proposed stages in NHB Scheme implementation	

Project at a Glance

1.	Applicant (s) / Legal entity Name				
2.	Constitution / Applicant nature / beneficiary				
3.	NHB Scheme for which DPR is made: 2.1/2.2/2.3/2.4/2.5.				
4.	Project Activity proposed				
5.	Project Site Address with I	Postal C	ode and Police	e Station Name	
6.	Land ownership: Owned	or on 1	egistered leas	e for minimum of 10	
	effective years from the da	ite of IP	A. In other wo	ords ideally one should	
	have 11 Years of lease in	cluding	a processing	period of 1 Year from	
	the time of application for	Technic	cal feasibility.		
7.	Market viability				Yes/No
	1. Whether the project is			ster/ hub/ belt	Yes/No
	2. Availability of raw ma	aterial as	ssured		
	3. Market Analysis is und	lertaken			
	4. Business model				
	5. Name of commodity pr	roposed	to be stored		
	6. Number of persons serv	viced		Growers	
				Traders	
				Exporters

		In-direct – Man days per annum	

${\bf 1. About\ the\ Applicant\ /\ Promoter\ and\ his/her\ entrepreneurship}$

A. About Applicant / Promoter

1.1.In case of Individuals or Group of farmers (if applicable)	
Individual	
Name of Farmer / Entrepreneur/Individual/ Proprietor	
2. Parents or spouse name of Individual	
Group of Farmer growers / SHG- Promoters	
1. Name of Group	
2. Names of all members of group with their father, mother/husband/ wife name	
1.2.In case of Legal entity (if applicable)	
Name / Title	
1. Incorporation / Registration number / CIN & date of registration	
2. Act under which Registered	
3. Registering authority	
4. Name of CEO/CMD/MD/	
5. If it is FPO/ FPC/ Producers Co-op society / Growers Co-operative Marketing federation- Please specify	
6. If it is Reg. Society/ Company/ Corporation / Partnership firm / Proprietary firm- Please specify	
7. Name of Promoter (s)	
8. Status of the promoter / applicant in the legal entity-please specify	
9. Whether the promoter / applicant is authorised by the Legal entity- Yes/No	
10. In case of Company/partnership firms / legal person a. Certified copy of Company/Partnership incorporation/ registration certificate issued by Competent Authority, as applicable b. Certified copy of MoA/Bye Laws c. Certified copy of Board of Directors Resolution duly passed and authorizing signatory of application to apply for IPA d. Certified copy of latest Audit Report, if applicable i. (are to be made available in case the project and the application is considered for processing State Yes/No 11. NGO- Specify details including registration No.

B. Applicant/ Promoters' Entrepreneurship:

- 1.11.CV / Biodata of Applicant (s) / Promoter (s) (Authorised by legal entity) in brief: (If applicants are more than one, all are to provide their CV / Biodata)
 - a. Name of Applicant/ Promoter:
 - b. Fathers & Mothers name:
 - c. Spouse Name
 - d. Date of Birth
 - e. Place of Birth (village/town/city, District and State)
 - f. Permanent Address:
 - g. Educational qualification (Higher Secondary, Under graduation Degree and above)

Education	Name of	Board /	Year of	Remarks
Metric/ U	education /	College /	Pass	
	specialisation	University/		
		Institute		

h. Horticulture and project proposal specific Trainings if any undergone

Training	Duration and Period	Institute with address	Purpose for undergoing training

- i. Current profession with details of Turn over, Accomplishments if any.
- j. Previous profession during the last 5 Years with details of Turn over, Accomplishments if any
- k. Experience- General and Horticulture & Cold storage
 - a. General (Other than Horticulture) specify the activity, establishment/ Office, location etc.
 - b. Horticulture-General: State specific activity- crop production, PHM etc. including project site, area, number of years, accomplishments etc.
 - c. Horticulture-Experience in proposed activity/ Cold Storage: provide the name of establishment/office, location, number of years, specialisation etc.
- 1. Any information that establishes the applicants' entrepreneurship (Should be able to enclose evidence during Market & Financial Viability stage and during JIT):

1.12. Registrations with any Government Agency if any

Government Agency	Provide registration No. details with date
	and location of registration
a. Warehouse Development &	
Regulatory Authority (WDRA	
b. MSME	
c. MSME/SSI	
d. Any other	

1.13.Commitment by the applicant: In case the project is approved for pre-IPA technical feasibility, the promoter / CEO/CMD and technical personnel (minimum two persons) should undergo a 2 Weeks (min.10 working days) project specific training programme as found appropriate / approved by NHB.

1.14.In case of a Partnership firm/ Company / Legal person

- a. Whether the proposed activity is covered under the objectives as per Memorandum of Association (MoA) & Rules explicitly: If so please provide the Article and Rule in verbatim.
- b. Professional history of Legal entities Farmers Producer Organisations (FPOs), Self Help Groups, Partnership/ Proprietary Firms, NGOs, Companies (as a Board of Director), Corporations, Cooperatives, Co-operative Marketing federations/ Government Institutions.
- c. Management structure if it is a company/ firm etc depicting the position of the applicant.

2.Details of benefits availed / **proposed to be availed by the applicant**- either individually or as a member of Association of growers, Group of Farmer Growers/consumers, Farmers Producer Organisations (FPOs), Self Help Groups, Partnership/ Proprietary Firms, NGOs, Companies (as a Board of Director), Corporations, Cooperatives, Co-operative Marketing federations from (i) NHB and (ii) other Ministries/ organisations of Central Government and (iii) State Governments including NHM for Horticulture related projects.

Note: The beneficiary should be truthful. In case any information is received later on at any stage about his/her availing of benefit which is not disclosed hereunder will entitle NHB to reject the current proposal and recover the funds if already released.

2.1.In this / proposed project and location:

- 1. Whether the proposed project proposal has been submitted for consideration under any State Government or Central Government Scheme for financial grant? If yes give details.
- 2. Whether any subsidy has been availed from the Board, other Central Govt. organisation or State Government for the same activity on the same piece of land, khasra/ Gat/Dag/ etc either in his / her own name individually or in the name of his/her family members or through any legal entity in which he/she is the beneficiary either in the same location, project. Yes/ No. If Yes, Please provide details

	Name	code &	Location	Survey	Project	subsidy	of project-
		Activity		No	cost	/grant	Operational /
						availed	underutilised /
							closed

2.3. Operational status of earlier projects under NHB scheme and other Central Ministries and State Government.

Ye	Organisa	Activit		Dates		As on	Annu	Expo	Profita	Rema
ar	tion / Ministry which released	y for which assista nce is	Subsi dy recei	Project comple ted	Comme nced producti	date Project Operati onal	al Turno ver (of	rts if any	ble or loss makin g	rks / Reaso ns
	assistanc e	availe d & code	ved		on	(Runnin g or Closed)	previo us Year)			

^{*} in case of completed projects and where proposals envisioning expansion/ modernisation are proposed, Annual Reports and Audited Statement of Accounts of the last 3 years are to be made available along with Bank appraisal during Market and Financial Viability stage both online and offline.

^{2.4.}Please provide map of earlier / other subjects and this project- Key map of project land showing project details and land boundary details

2.5. Provide the following details:

- a. Have you ever been refused / denied subsidy claim from NHB, NHM, APEDA, NCDC, MoFPI? If Yes please provide details of (i) Project code, (ii) Name of Applicant, (iii) Address (iv) Project activity etc. and the reason for such refusal / denial:
- b. If you were a recipient of Government subsidy, have you / your Bank/FI ever been asked to refund the subsidy / call back? If Yes please provide details of (i) Project code, (ii) Name of Applicant, (iii) Address (iv) Project activity etc. and the reason for such refusal / denial:

Attention:

1. In case the project application is considered for Pre-IPA, the applicant shall have to enclose No Objection Certificate from State Government / State Horticulture Mission that there is no duplication of funding for the project and the applicant shall also submit self-declaration that he/she is not availing government subsidy / grant / assistance from any other ministry.

3. About the Project, Rationale, Management and Description:

3.1. About the Project (Please describe covering the following points)

1.	Name of the Project	
2.	Correspondence Address:	
3.	Address of Project Site:	
4.	Nature of Project	
	1. Construction (New)/ Expansion	
	2. Add on Standalone component as per	
	Scheme	
5.	Project Activity and Scheme components (Sh	ould be as per NHB scheme latest
	scheme guidelines- please verify):	

Moder Storag	rnisation of Cold e	Tick market	No.of units	Capacity
1.	Modernisation of			
1.	Refrigeration			
2.	Modernisation of			
	Insulation			
3.	Programme Logic Controller (PLC) Equipment			
4.	Dock Leveler			
5.	High reach material handling equipment (MHE)			
6.	Advance Grader			
7.	Stacking System			
8.	Alternate Technology			
9.	WDRA NWR System			

- 6. Produce /commodity to be handled / stored
- 7. Objectives of the project
- 8. Expected outcomes of the project
- 9. Socio-economic benefit to the Rregion /District / State

3.2 Rationale / Justification for the project:

(should also include availability of raw material, its area, production and its volume, quality, existence of similar projects, linkage with markets, consumption areas, technology etc.)

4.5 **Project Site/ Land details:**

4.5.1 Proposed Project Area (Sq.mt)

A		of land proposed for the					
	1 0 1	and Revenue Records					
		the land is clear in the name					
		is free from any litigation					
	How Title is	Ancestral					
	derived	Purchased (with details					
		of date)					
	Encumbrances i	f any					
В	Name of the Ow	oner in case of joint ownership	Survey/	Area in	Share		
		_	Gat	Sq.mt / Ha			
			/khasra				
			No etc.				
	Whether land bo	oundaries are demarcated for	Yes/No				
	the applicant cle	arly.					
	Whether land is	in possession of the Applicant					
C	In case of Partne	ership					
	1. Whether	land is owned by Partnership	Yes/No				
	firm or j	ointly by its partners					
	2. NOC: If	land is owned by one of the					
	partner,	an undertaking by land owner					
	is require	ed stating that he/she will not					
	withdray	y, sale or transfer his/her land					
	during co	arrency period of the project					
		in possession of the Applicant

	_	ne office of Sub-Registrar					
		ears of lease					
	3. Whether	lease is entered in RoR	Yes/No				
		in possession of the Applicant					
E		mortgaged? If yes provide					
		agor and mortgagee					

3.4.Location of the Project- Identification (Longitude, Latitude, Altitude, Village, GP, Block, District, State), Area, Number of growers.

1.	Location Address
2.	a. Survey/Khasra/ Dag/ Other No
3.	b. Habitation/ Village
4.	c. Gram Panchayat / Urban body
5.	d. Block / Urban body
6.	e. Sub-Division
7.	f. District
8.	g. State /UT
9.	Location Longitude, Latitude &
	Altitude
10.	Total Area of land owned (ha)
11.	Total Area proposed for project (ha)

Google map with coordinates:

3.5. Current usage of land of proposed Project Area

Proposed Pro	ject		Current usage			
Survey / Dag	Nature of	Area (ha)	Activity /	Area (ha)	Mortgage	
etc.No	land		Crop		Yes/No	
	Dry/				If Yes with	
	Irrigated/				whom	
	Waste land					

3.6.Current infrastructure and assets possessed by the Applicant:

Category	Asset Name	Year of	Make	Capacity	Cost
		Purchase			
Fixed					
Assets					
Operating					
Assets					

3.7.Lay out plan of the project/ Map of Farm / production/ Operations unit / project land showing project details and land boundary details including with fire, effluent treatment and traffic movement within the campus.

3.8. Conversion of Land Use (CLU) if applicable

Whether Land in possession of the applicant is with/ without approval for industrial use/Whether CLU permission for the project has been received from competent authority: If Yes- Please provide details of the authority approved with full designation, address contact numbers and email id, approval No. and date

3.9.Whether project site is part of production belt / cluster / hub? If yes, provide details of working relations with other farmers

3.10 Rationale for project site selection / Location advantages and disadvantages

Connectivity:

Road connectivity- Distance from	National High way	
	State Highway	
	Fright Corridor	
	Golden Quadrilateral	
Rail connectivity		
Air connectivity		
Water ways		
Market connectivity		

Supply side suitability: Raw material Catchment area

Whether project site is part of production belt / cluster / hub? If yes, provide details of working relations with other farmers

Road connectivity- Distance from	National High way	
Distance nom	State Highway	
(Range)	Fright Corridor	
(Ivange)	Golden Quadrilateral	
Rail connectivity		
Air connectivity		
Water ways		
Market connectivity		

Map of Catchment Area:

Demand side suitability:

Proximity and connectivity of project site to major consumption centres /Mandies

Demand centres	Names	Distance from the proposed site
Agriculture Produce Market Committees - APMCs / Mandies		
7 ti mee 7 mandiee		
Tier-1, 2 and 3 cities		

Map of consumption Centres

Other Merits/ Advantages:

3.11. Component wise Justification: (Use the applicable information)

Modernisation of Cold Storage		Tick market	No.of units	Capacity
1.	Modernisation of			
	Refrigeration			
2.	Modernisation of			
	Insulation			
3.	Programme Logic			
	Controller (PLC)			
	Equipment			
4.	Dock Leveler			
5.	High reach material			
	handling equipment			
	(MHE)			
6.	Advance Grader			
7.	Stacking System			
8.	Alternate			
	Technology			
9.	WDRA NWR			
	System			

3.12. Cost components / activities of the proposed Project

Project Component	Sub- items	Capacity/ Area/ spacing Etc.	Units/ Numbers	Proposed Total Expenditure	NHB norms for calculating EPC
1	2	3	4	5	6
Land					Capacity
Land and site					based:
development	PEB Structure				In case of Cold Storage/ CA
Building & Civil Structures	Civil construction cost Cost of racking / mezzanine structures Insulation system				and Technology induction and Modernisation - Eligible Project Cost (EPC) is
Plant and Machinery	Refrigeration system Condensers Air handling system Ventilation system CO ₂ , Ethylene scrubbing systems Humidity generation and control systems Piping				based on capacity except for components which are part of CS / CA stores. Capacity and Pro-rata basis:
Material Handling Equipment	Stacking system Bins Battery operated pallet trucks Crates, Pallets Reach Truck, Forklift etc etc.				In case of Refrigerated Transport Vehicles
Sorting Grading Infrastructure					Component based: For Add on
Refrigerated Transport	Refer container				components
Tools and Equipment	Floor Cleaning equipments, Vacuum Cleaners etc.				
Laboratory					
Process Control & Automation	Monitoring Gauges PLC etc				
Utilities	Water softener etc. HT power line Transformer and voltage stabilizers				
Backup system for power	DG sets Solar Power etc.				
Energy efficient and technology to reduce carbon foot print	Solar VFD HRW CFL FVD				
	Total				

Operational planning (optimal):

1.	Name of Manager (working directly under the applicant /	
	CEO) if anyoptionalQualification and experience of the	
	proposed personnel in managing cold chain projects.	
2.	Operations: (viz., loading, unloading, grading, sorting,	
	cleaning, weighing, packing etc.)	
	i.	Own / custom hiring
	ii.	Own / outsourcing
	iii.	Own / outsourcing
	iv.	Own / outsourcing
	V.	Own / outsourcing
	vi.	Own / outsourcing
	vii.	Own / outsourcing
	viii.	Own / outsourcing
	ix.	Own / outsourcing
	X.	Own / outsourcing

Profile of Agency executing erection of Cold Storage / CA etc.

1.	Name of agency providing technical know-how and turn key	
	basis with full address of its Hq and its local office	
2.	CIN / Company Incorporation No.	
3.	GST No.	
4.	CEO of the Agency	
5.	Contact person Name and contact numbers	
6.	Technical Manpower available	(Desirable)
7.	Number of years of experience	(Desirable)
8.	No of plants set up till date during the last 5 years in the State	(Desirable)
9.	Turnover of the Agency	(Desirable)
10.	Whether firm has been blacklisted ever by any government or	(Desirable)
	corporate firm	

3.13. Quality of Services of Agency executing erection of Protected Structure/ Post Harvest Infrastructure (based on project / applicability etc.

1.	Hardware: Guarantee offered 1.	Guarantee Period & conditions if any
	2.	
	3.	
2.	Hardware: Warranty offered	Warranty period & conditions if any
	1.	
	2.	
	3.	
3.	Services: Supervision and After sales service	Free service Period
4.	Others	
	Others	
5.		
6.		
7.		
8.		

3.14. Project Implementation period in case of approval:

(Commencement to Completion...... Months)

Activities	Months	Approximate Date	Expected Date of
	required	of Commencement	Completion
Acquisition of Land			
Development of Land			
Building & Civil Works			
Plant & Machinery			
Placement of order			
Delivery at site			
Erection of equipment			
Electrical & Instrumental			
Erection			
Trial runs &			
Commissioning			
Fixing of Insulation			
Arrangement of Power			
Arrangement of Water			
Commercial Operation			

Note: Time limit for completion of project is 18 months.

3.15. Month Wise Operational Chart: Number of days of operation

Product	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec
Commodity-1												
Commdity-2												
Commodity-3												

Loading period	
Holding Period	
Sales Period	

Availability of Manpower (Skilled Labour, Expertise etc. Required, Already available, Gaps and the management in an Year.)

Managerial- Proposed

S.No	Designation	Education	Experience	Numbers	Purpose	Remarks
		Qualification				
	CEO

Skilled and Unskilled Labour

Operations/		Skilled	Labour		Unskil	led labo	our		Gap	
activity	Requirer	nent	Availabi	Availability		Requirement		Availability		US
	Number	No.of Days	Number	No.of Days	N	D	N	D		

Gap Management if any:

3.16. Employment Generation per annum

No. of man days / Annum	
Permanent man power -Permanent (on rolls)	
Casual / Temporary	

3.17. Facilities, External Infrastructure and Utilities

(Power, Fuel, Water, Plant and Machinery, Effluents treatment etc.)- Required, Already available, Gaps and the management.

Utility	Requirement	Remarks
Power	Likely Daily power requirement	
	Likely Annual Power requirement	
	Proposed Source of Power	
	Access to Power is assured or not	
	Alternative Source of Power in case of breakdowns	
	Whether renewable alternate energy to power is	
	under consideration	
Water	Source – Ground Water /Surface Water	
	Existing or New source	
	Whether NOC has been taken from CGWB / State	Yes/No
	Government Ground water regulation authority-	
	Water measurement systems is planned	
	Daily Water requirement	
	Whether water harvesting is planned	Yes/No
	Water productivity parameters proposed if any	
	Quantity of effluents likely	
	Water treatment plant if any proposed	Yes/No
Fuel	Access to fuel to power- Generators- Yes/No	
	Nearest fuel depot	
Effluent treatment	Facility and method adopted for effluent treatment.	

3.18 SWOT Analysis:

5.10	Off Allalysis.	
1	Strengths	
	111	
2	Weaknesses	
	On a sufficient	
3	Opportunities	
4	Threats	
4	TITEALS	

4. MARKET VIABILITY

4.1. Raw material commodities and their characteristics

S.No	Name of Commodity	Characteristics		
	proposed to be stored			
		Physical	Biological	Chemical

Horticulture produce are special as they respire even after harvest.

For single commodity storage

- 1) Harvesting time (morning/evening hours when temperature is low) and pre cooling requirement of product
- 2) Minimize mechanical injury during harvest/handling prior to storage
- 3) Requirement of operations like desapping in case of mango
- 4) Climacteric or non-climacteric nature of produce
- 5) Requirement of blanching (to inactivate enzymes in case of frozen peas)
- 6) Temperature and humidity ranges for safe storage of produce
- 7) Chilling injury temperature ranges

For Multi commodity storage

In addition to above factors of single commodity, following considerations are needed

1) The commodities mix should be such that there is match of temperature and humidity, levels of ethylene production and sensitivity for all commodities

Examples of ethylene producing and ethylene sensitive products:

- Ethylene producing: e.g. apples, avocado, bananas, pears, peaches, plums, tomatoes
- Ethylene sensitive produce: e.g. lettuce, cucumbers, carrots, potatoes, sweet potatoes
- 2) Odour transfer should be avoided by proper selection of compatible produce

Examples of odor transfers which should be avoided:

- apples/pears with celery, cabbage, carrots, potatoes or onions
- celery with onions or carrots
- citrus with strongly scented vegetables
- pears/apples with potatoes à former acquire unpleasant taste
- green pepper will taint pineapples
- onions, nuts, citrus, potatoes should be stored separately

4.2. Raw Material Availability

4.5.2 Identification of Catchment Area/ Cluster: Radius :

(Not to exceed 100 Km radius in production areas)

State	District	Approximate Area	Distance from Proposed Site	Major Crops Available

^{*:} Catchment area should be either Sub-Division/ Block/ Taluk etc.

In exceptional cases the radius can be beyond 100 Km to be satisfied upon physical verification.

4.5.3 Map of Catchment Area

4.2.3 Production of targeted horticulture crops in the state

Project specific information

Proposed usage of Cold Storage / CA

Pu	rpose	Proportion (%)	No.of potential growers / traders in the catchment area
1.	Rental for (Growers		
	produce)		
2.	Rental for Traders		
3.	Storage by Owner of Cold		
	Storage for own trading		
4.	Contract Farming		
		100%	

Commodities proposed for Storage:

Commodity / Crop	Variety / Hybrid	Share of commodity	Availability of Protocols	Source of Protocol (R&D Institution/ Company)

4.3.2 Target Market- As per applicability

Domestic or International. In case of International market, the applicant has to refer APEDA export requirements and should specify compliance appropriately with in the document. In case of domestic market specify the intended market

- 1. Quality grades/ specifications/ kinds of products and their targeted Domestic/ International market
- 2. Existing / Proposed Market linkages:
- 3. MOUs/ Contract documents / undertakings/ LoA if any
- 4. Target consumption centres/ key domestic markets
- 5. Export targets/ Plans if any
- 6. In case of export, details of volume to be exported / export destination / statutory norms of export destination should be provided in the DPR.

4.3.4. Market Competition

Major cold storages available in the cluster with respective capacities.

Availability of Storage facilities in the **Project area** (Please attach the list)- For the latest 3 years.

Year	Commodity	Low cost storage structures			Cole	Cold storage			CA Storage		
		No.	Capacity	Capacity utilisation	No.	Capacity	Capacity utilisation	No.	Capacity	Capacity utilisation

i. MODERIZATION OF REFRIGERATION

S. Nos.	Component: Compressor (For	Description (Old)	Description (New)		Deviations if any
	Existing and New)		Recommended Parameters	Offered by promoter	
1	Name of Manufacturer		Specify make		
2	Type of Compressor		Reciprocating/ Screw		
3	Refrigerant		R-717 or others.		

4	Operating Parameters: Suction Temp (° C)/Cond. Temp (° C)		SST = 2°C and DST = 38/40°C		
5	Refrigeration capacity (kW)		Capacity in KW		
6	Power Consumption (kW)		Power consumption in BKW		
7	Coefficient of Performance		C.O.P.= Comp. capacity in KW/ Power consumption in BKW		
8	Capacity control		Automatic/ Manual. Specify % capacity control		
9	Motor Rating (kW)		Connected motor rating in KW.		
10	Safety cut outs & Gauges		Such as LP, HP and Oil pressure gauges and cut outs		
11	Total Refrigeration load of facility (kW)		Total proposed additional load capacity		
S. Nos.	Component: Evaporator	Description (Old)	Recommended Parameters	Offered by promoter	Deviations if any
1	Name of Manufacturer		Specify make		
2	Model number		Specify model		
3	Refrigerant		Specify refrigerant such as R-717 / or others		
4	Refrigeration system		Gravity / Overfeed Pump system		

5	Type of Evaporator		Floor / ceiling suspended. Attach manufacturer's technical data sheet.		
6	Capacity (k W) and delta temp - Temp (° C)		Specify capacity in KW at 7 TD and 4 TD temp.		
7	Room temperature (° C)		Provide details of Room temp. (° C) to be maintained		
8	Air flow (cum/hr.)		Provide air flow in CMH. For potato it is 85 CMH/ MT Storage capacity and for CA, it is 165 CMH/ MT Storage capacity + VFD Control to be provided to regulate air flow during storage/ holding		
9	Volume of Chamber (m³)		=(LxWxH) in meters		
10	External Static Pressure (Pa)		Provide external static pressure (Pa)		
11	Power Consumption (KW)				
	Valves, Controls and Instrumentation	Description (Old)	Recommended Parameters	Offered by promoter	Deviations if any
12	Control Valves		Provide type of control valves used in suction line, discharge line and defrosting line		

13	Expansion Valves	Provide specification of expansion valve – make/ model	
14	Room temperature and RH monitoring	Provide details of electronic controller used for temperature and RH monitoring.	
15	Monitoring & Controls	Provide details of electronic controllers and other controls used for monitoring and control of Refrigeration plant.	

ii. MODERIZATION OF INSULATION

S. Nos.	Component: Insulation	Description (Old)	Description (New)			Description (New) and
		(333)	Recommended	Parameters	•	Deviations if any
1	Name of Manufacturer		Specify make			
2	Total wall/ceiling/partition areas (m ²)		Ext. Wall Area = 2 *(L+W) *H Ceiling Area= (L*W) Partition Wall area= (Length of partition wall * Height)			
3	Floor area (m²)		= (L*W)			

4	Insulating material and thickness	PUF/ EPS			
	and thickness	Thickness(
		mm)			
5	Thermal Conductivity in	PUF	0.023		
	(W/ m ⁰ K)	EPS	0.036		
5	U value (W/(m2 ⁰ K)	= Thermal Cor m ⁰ K) / insula in mm/ 1000	nductivity (W/ tion thickness		
6	Density (kg/m³)	PUF	40±2 Kg/ m ³		
		EPS	16±2 Kg/ m ³		
7	Thermal diffusivity (m2/h)	PUF	0.38 - 0.41 x 10 ⁻⁶		
		EPS	1.5-1.7 x 10 ⁻		
8	Type of vapour barrier and thickness	Aluminium Foil	50 Micron		
		Polyethylene	250 Micron		
9	Type of skin (if applicable)	0.5 mm thick	PCGI Sheet		
10	Joint type	PUF Panel	Tongue & Groove joints with or without Cam- Locks		
		Insulation Slabs	Staggered Joints		
11	Fire resistance characteristic	extinguishing	flammability preferably of		
12	Substrate Used (if applicable)	Number of layers	If insulation thickness > 50/75 mm, number of layers 2		

13	Adhesive to fix with substrate	Hot blown bitumen of grade 85/25	
	Substrate	grade 65/ 25	

i. Total Electrical Load after proposed Technology Add-ons/ Modernization of Cold stores - Type-I

Equipment	(Peak Period) - BkW	Holding Period - BkW

5	Storage battery capacity (Ah)	Provide total battery capacity that shall be used to store the energy generated in Amp- Hours , if applicable	
6	Battery Backup (hours)	Provide details of battery back up in hours	
7	Grid interactive	Provide Grid metering rate for facility	
8	Energy generation (kWh)	Provide expected annual / monthly energy generation in KWh.	
9	Grid Electricity Availability (hours)	Provide details of number of hours electricity is available at the facility.	
10	Total SPV Capacity (kW)	Provide total SPV (Solar Photo Voltaic) capacity in KW.	
11	Power of single PV panel (Watt) and total number of panels installed.	Specify power in Watts of single PV Panel and total number of panels installed.	
12	Total array size (kW)	Specify number of panels in a single array.	

iv. WDRA – NWR EQUIPMENT

S. Nos.	Component: WDRA-NWR Equipment	Recommended Parameters	Offered by promoter	Deviation if any
1	Computer Type / Quantity	Manufacturer & Model and hardware / software configuration for each to specified		
2	Printer type	Manufacturer &		

		Model to specified	
3	Type of produce	Specify here type of cargo that shall be handled and annual quantity that will be issued NWR	
4	AMC	Promoter to specify AMC details	
5	WDRA accreditation	Promoter to specify application number, date of applying and the date on which accreditation was granted	
6	Storage capacity (m3)	Specify here volumetric storage capacity available.	

v. Codes & Standards Followed

SI No	Details	Relevant Codes	Compliance by Promoters (Yes/No)
1	Construction Materials	Relevant IS Codes for various construction materials	
2	Thermal Insulation & Application	IS 661, IS 12436 & IS 4671	
3	Refrigeration Equipment & System	Relevant IS code for different equipment	
45	Electrical & Mechanical System		
a)	PVC insulated cables (light duty) for - working voltage up to & including 1100 volts	694-1990, Part-I & II	
b)	PVC insulated cables (heavy duty) for Voltage up to 1100 volts	1554-1988 Part- I	
c)	Guide for marking of insulated conductors	5578-1984	
d)	Code of practice for earthing	3043-1987	
e)	Recommendations on Safety Procedures and Practices in Electrical Work - Part I: General	5216-1982 Part - I	
f)	Recommendation on Safety Procedures and Practices in Electrical Work - Part II : Life Saving Techniques	5216-1982 Part II	
g)	Code of practice for selection, installation and maintenance of Switchgear and Control gear	10118-1982 Part I,II,III,IV	
h)	Code of Practice for Electrical Wiring Installations	732-1989	
i)	XLPE Cables for working voltage up to and including 1100 Volts	7098- 1988 Part -I	
j)	Specification for Electric Power Connectors	5561- 1970	

k)	Methods of Test for Cables	10810 - 1984	
I)	National Electrical Code	SP-30	
m)	Others	Equipment specific codes for all items as per list given in NHB – CS-Type-01-2010 Standards	

Applicant declares compliance with all mandatory codes and regulations are complied with

(Signed by applicant)

6.2. Automation Services if any

1) Measurement Systems

	Parameter	Instrument	Frequency of reporting	Remarks
1.	Air Temperature			
2.	Relative Humidity			
3.	Co2			
4.	Ammonia			
5.	Freon			
6.	Ethylene			
7.	Oxygen			
8.	Pathogens			
9.	Fire & Smoke detection			
	System			

2) SMS & Email Alerts: The Authorized person of company will receive on instant SMS and Email alert whenever there is movement of stock in our cold storage.

3) Online Stock details

- **4) Air monitoring SMS:** The authorized person in your company will receive a daily SMS on temperature and relative humidity at regular intervals.
- 5) Online Air Monitoring System: The authorized person in the company can view online temperature and relative humidity of each chamber.
- **6) Monthly Inventory report:** The authorized person in the company shall receive product wise monthly inventory report.
- 7) Monthly Air monitoring Data logger sheet: The authorized person in the company shall get temperature recording info of every hour 24X7 for that month.
- **8) Phone aap-** Growers & clients have the privilege to check the temperature and Rh in the storage of their stock at the press of a button in their phone.
- 9) Inventory Day report:- System generated day report across all location in one mail is sent to the clients.
- **10) Weekly Inventory report:** The authorized person in the company shall receive weekly inventory report.
- **11) Weekly Space monitoring report:** The authorized person in the company will get space utilization report in which client get an idea about total allotted space, utilized space & how much is vacant space.

7. Food Safety

(Includes GMP, HACCP, Allergen, Sanitation, Product Tracking and Recall Preparedness Programs etc.)

7.1. Quality Assurance Plan

- Quality factors for fresh fruit and vegetables are defined by hygiene and quarantine factors(e.g. parasites larvae, pupae, natural toxicants, contaminants, spray residues, heavy metals etc.), Cosmetic appearance: size, weight, volume, dimensions, shape, regularity, surface texture, smoothness, waxiness, gloss, colour, uniformity, intensity, spectral, physical defects, (splits, cuts, dents, bruises), texture (firmness, hardness/softness, crispness, mealiness-grittiness, fibrousness toughness), flavour factors (sweetness, sourness, astringency, bitterness, aroma, off-flavours, off-odours) and nutritional (dietary fibre, cancer inhibitors, carbohydrates, proteins, lipids, vitamins, minerals).
- Pre-storage treatments
- Sorting/ grading
- Washing/ Disinfection
- Fungicide or other treatments (physical or chemical)

• For fruits and vegetables quality two parameters should be monitored carefully (i) Chemical (pesticides, toxins and contaminants such as lead, cadmium, nitrate, etc.) residue and (ii) Micro biological infection.

S. No.	Name of	Chemical residue test		Micro	biological	test F0	OR
	Fruits/Vegetable	!		FOODBORNE PATHOGENS			
				(E. coli	i, Listeria,	Salmonel	lla,
				Shigella, Vibrio, etc.)			
		Observe	Safe limit	Observe	value	Safe limit	
		value	(MRL or ML for	(No.)		(No.)-	Nil
		(µg/kg)	different			for	
			pesticides/			pathogens	3
			toxins/				
			contaminants)				
			(µg/kg)				
1							
2							

- Quality of produce: It is good to know the history of produce such as product maturity, prior goods preparation, previous quality inspections like colour, firmness and taste and produce grading. Produce must be tested for chemical residues, nutritional factors and microbial load before storing. Before storing and when rotating stock, it is important to remove rotting fruit from cases as one piece can affect others. The chain reaction can quickly destroy the quality of a whole case of fruit.
- Stock control: All the produce must be checked for proper packaging on delivery. Tightly packed pallets should also be avoided as crushing can occur, leading to the development of bacterial growth. Packing should be such that there is enough room for the internal fan to distribute cool air freely inside the produce Other parameters like microbially spoiled and physically damaged produce must be segregated from the

disease free and sound produce for proper shelf life extension of produce in cold stores.

- Audits and procedures: Clear procedures i.e Standard operating procedures (SOP's) must be prepared and kept in place to protect temperature sensitive products. All the factors like required temperature for each produce, pre-cooling before loading, and following food-grade inspection processes must be taken into account. All the SOP's must be precise and clearly understandable to all.
- Storage: Certification of cold storage facilities and equipment must be ensured. An independent third-party firm should regularly certify any facilities storing temperature-sensitive products to verify that they are clean and that their daily operations comply with the appropriate food safety requirements. Continuous temperature monitoring systems are available that can keep track of changes in refrigerated storage temperatures, providing alerts to employees whenever something is wrong. Advance warning is a good option to fix the things before problems occur. Thermometers should be properly calibrated for cross-checking the cold store temperature and produce temperature.
- Self-audits: Self-audits must be conducted monthly to verify employee training and practices, to ensure compliance of food industry requirement for pest control, warehouse sanitation, temperature control monitoring etc.

Details	of	Name	of	Tested Parameters and results		Protocol/
Laboratory		Fruits/Vegetable				Technology /Equipments
					T	used
				Chemical	Micro	
				residue test	biological test	

- Quality Assurance Plan components:
 - 1. Quality Objective
 - 2. Management reviews
 - 3. Standards and Guidelines being followed
 - 4. Risk Managements
 - 5. Supplier control
 - 6. Audits and Corrective Action
 - 7. Quality Records
 - 8. Training

7.2. Quality Certification

- HACCP
- ISO 22000
- ISO 9001

7.3. SPS (Sanitary & Phyto Sanitary) Protocol

- Site history and site management
- Propagation material

- Soil management
- Irrigation and fertigation
- Harvesting
- Produce handling
- Workers health and safety
 Waste and pollution management
- Record keeping and internal self assessment/inspection
- Product Criteria
- Quarantine System
- Sampling & Methods of risk assessment
- Packaging & Labelling requirement

7.4. Sanitation, Hygiene and Safety

- Safe cleaning and maintenance: All the shelves and walls of cold stores must be properly clean and in good condition. The cleaning chemicals must be documented, used and stored properly. All the lightning and ventilation aspects must be covered properly. At leat once in a year the entire cold stores should be fumigated with safe chemicals for avoiding any risk of microbiological contamination. Surrounding areas should also be checked regularly for cleanliness. Cleaning schedule and methods for cold stores be properly documented. Any signs of pests like mice and flies should be checked and taken care of.
- Personnel Hygiene: All the personnel staff dealing with cold stores should be properly trained for personal hygiene like proper hand washing. Hot water, soap, paper towels and pedal bins should be present at every wash basin.
- Use of Approved Cleaning & Sanitizing Agents
- Use of Protective Personnel Equipment's
- Separate & Segregated storage of Chemicals

7.5 Cold Storage Sanitation

- Cleaning Procedure
- Cleaning Schedule
- Monitoring & Measuring Effectiveness
- Record Keeping

7.6 Waste Management System

- Segregation of Waste as Hazardous & Non-Hazardous
- Separate Bins
- Waste Removal

7.7. Safety of Personnel

• Use of Personal Protective Equipment

• Safe Handling of Products

7.8 Training of Cold Storage Operators

- FoSTaC Training
- HACCP/GMP/GHP/GWP Training & Evaluation

8. Traceability

All traceable items must be uniquely identified and this information is shared between all affected supply chain partners. A traceable item can be: a product or traded item (e.g. case/carton, consumer item), a logistics unit (e.g. bin, container) and a shipment or movement of a product or trade item. , the identification of products for the purpose of traceability requires: i) The assignment of a unique GS1 Global Trade Item Number (GTIN) ii) The assignment of a batch/lot number. When a product is reconfigured and/or re-packed, the new product must be assigned a new unique product identifier (i.e. GTIN). A linkage must be maintained between the new product and its original inputs. Following traceability information must be supplied:

- Logistic unit identifier
- Commodity name and, where applicable, variety name
- Trading partner/buying party
- Ship from location identification
- Ship to location identification
- Date of despatch/shipment
- Grower records details related to growing/production (e.g. field, seeds, details of production inputs)
- Backward & Forward Traceability of Product

Note: Certification should be based on verification of books of accounts, bills, invoices, work orders, bank statements etc. of applicant and that of current profession/ business.

Counter signature (with name) of Promoter / Authorised Signatory of Company with seal with date.

Self-Declaration by applicant

- 1. I have read, understood and abide by the latest NHB Schemes operational guidelines including conditions, norms and pattern of assistance.
- 2. The information provided in the Detail Project Report is true to my knowledge.
- 3. In case the details provided by me viz., (i) my personal details, land, previous benefits availed by me from either Central and State Government if proved false at any stage NHB is entitled to recover any subsidy if any released by it from me.
- 4. I have availed the services of a competent Mechanical Engineer, Horticulturist and Post-harvest technologist and for technical details and viability. Accordingly declaration is provided herewith.
- 5. I have availed the services of a competent Project Finance expert for the requisite project finance details and project viability. Accordingly declaration is provided herewith.
- 6. In case the project is approved for pre-IPA: technical feasibility, I shall undergo a 2 Weeks (min.10 working days) training programme at my own expenses in one of the relevant institution as found appropriate / approved by NHB.
- 7. I shall adopt scientific storage practices, technology standards and maintain proper accounts and records.
- 8. The project is technically feasible and economically viable and is bankable.
- 9. In case the project application is considered for Pre-IPA: Technical feasibility, I am bound to submit all required / requisite mandatory documents to establish veracity of my DPR and eligibility to claim subsidy under NHB Schemes in the form prescribed within 6 months of any such intimation from NHB for according In principle approval (IPA). Else I acknowledge that my application stands vacated and rejected by default of my omission.
- 10. I understand that incomplete, delayed and /or NPA projects and default cases shall not be eligible for subsidy.
- 11. In case IPA is issued and subsidy is released subsequently, the project location, plant & machinery will be **geotagged** permanently and shall not sell the any of items / plant & machinery/ components procured under the project. In case of any violation I am obliged to return the subsidy received within 30 days of notice from NHB.
- 12. I solemnly affirm/ undertake that the proposed project components in the application are a completely new activity and not a pre-existing activity or any component thereof.
- 13. In case of Plant & Machinery- only new are proposed. Reconditioned / refurbished equipment/ Plant & Machinery shall not be procured under the project.
- 14. In case of concealment of any facts in this regard, the NHB would have right to reject/ cancel my application / project out right at any stage.
- 15. In case the project is approved for subsidy claim I shall undertake a MOU with NHB to comply with all the terms and conditions of the scheme guidelines as effective on the date of subsidy claim approval and any other condition/ advisory in the interest of projects success and sustainability.

Applicant (Name and signature) and Seal if any

Appendix-VI

UNDERTAKING [Refer Para 12.1 (m)]

(Fathe	(Name of the Lead Promoter/Director/ Partner/ Proprietor etc.) Son of Mr
1.	That I am promoter/ director/ partner/ proprietor of M/s
2.	I hereby make application and I am duly authorized in my own right/by management vide its resolution no
3.	That the term and conditions of the above scheme of the MoFPI under which an application is made by the applicant have been properly read and understood by me and I affirm that the project/ proposal comply with all the terms and conditions of the approval letter and provisions enshrined in the scheme guidelines.
4.	That the proposed activities to be undertaken by the project/proposal are covered under the above scheme of MoFPI and no part of the scheme/infrastructure of the project is designed or assigned to be used for any activity other than the activities specified in the application at present or in the near future.
5.	It is certified that (name of applicant) has not obtained or applied for grants for the same project, component, purpose or activity from any other Ministry or

 It is certified that applicant's sister concern (s)/ related company / group company/firms as well as the applicant itself has not availed any financial assistance for a food processing project in the past from MFPI [if availed, the details shall be furnished separately].

Department of the Government of India or State Government or their agencies.

- I also solemnly affirm/undertake that the proposed project components in the application are a completely new activity and not a pre-existing activity or any component thereof.
- In case of concealment of any facts in this regard, the MoFPI would have right to reject/ cancel my application/project out right at any stage.

- I will meet any shortfall in means of finance due to less admissibility of grant or any future reduction in grant-in-aid or any escalation caused in the cost of the project.
- 10. I shall not dispose-off or encumber or utilize the assets created wholly or substantially out of government grant for purpose other than those for which they have been sanctioned, without obtaining the prior approval of the sanctioning authority of grant-in- aid.
- 11. In case of non-implementation/ delayed implementation of the project the Ministry will have absolute right in cancelling the approval granted and also recall the grant released, if any, along with interest as per the scheme guidelines.
- In case of failure to operate the project for at least three years after commencement of commercial operation, I shall return the entire grant-in-aid with interest @ 10% per annum.
- 13. User charges/hiring rates of the facilities created under the project will be disseminated to the public including uploading of the same on the website of the project/ organization. A copy of the same will also be made available to the Ministry.
- 14. I undertake that all the information furnished in the application and the DPR with respect to the eligibility conditions, etc. are true and correct to the best of my knowledge and belief and nothing material has been concealed therefrom.
- 15. 15	NHB	In case NHB approves release of	Online	Target:
		subsidy, releases funds within 15 working days of minutes of competent authority to SRF account subject to availability of funds.		15 days
16	Bank/ FI	 Depo sit the subsidy into SRF account against the Term loan account of Borrower. Shall not charge interest on Term Loan equivalent to subsidy from the date of receipt of subsidy. Conf irms the receipt of subsidy online. Infor ms the receipt of subsidy to the applicant. Shall inform if the Term loan account turns into NPA. Clos ely monitor the project health minimum for 3 years or till the payment of term loan whichever is later. Take s into consideration the NHB 		On receipt of subsidy
17	Applica nt	advisories. 1. Confirms the receipt of subsidy online. 2. Implement project strictly as perscheme guidelines. 3. Maintain records and accounts. 4. Adopts technology / scientific package of practices and innovate marketing / business strategies. 5. Takes into consideration the NHB advisories. 6. Regularly reports the performance of		On receipt of subsidy

	project	t health			
7			Shar		
	e best practices if any to NHB.				

Salient features:

- 1. Scheme is open on all days during 2018-19 as per scheme design.
- 2. There will be a helpline email: helpdesk.nhb@gov.in to address queries from anybody.
- 3. There will be a provision to create an account for each applicant. Any change in status of application will be informed by an SMS and in account. All the correspondence from both sides Applicant, NHB and also of the Bank will be shown in the account.
- 4. For the best preparation: The applicant is advised to submit the application, DPR and cost of application, well in advance (6 months) from the proposed date of project start.
- 5. Applicants whose projects are rejected at Technical feasibility stage are welcome to resubmit the proposal for fresh examination with improved and corrected proposal.
- 6. The participating banks will adhere to the standard norms of appraising the project regarding Market viability and Financial viability before the release of term loan to ensure that the project is new, meets the guidelines of NHB, and the applicant has clear land title or lease hold right over the land.
- 7. The name of applicant (including entity) should be same in IPA Application, IPA, Bank Sanction and Land ownership / lease deed. Any deviation invites rejection.
- 8. Target / proposed timelines subject to Budget availability as per scheme design are:

Before	Technical feasibility	1 Month
IPA Approval	Upon submission of Bank Appraisal: Market and Financial feasibility	2 Months
Post - project	Competent committee meeting for a decision on subsidy claim after JIT report	2 Months
	Fund release in case competent authority approves subsidy claim	1 months
